WORKS IN PROGRESS

The first draft is in progress	Son, Young Seob. <i>A currency substitution model</i> , -- This paper is an international version of Gertler and Grinols' (1982) paper. Including a foreign currency into the model, we expect an increase of the money growth rate in the mean may reduce capital accumulation because of a rise in demand of foreign currency
Data collection is in progress	Son, Y. <i>Exchange Rate Pass-Through in Asian Countries</i> , -- Predicting the size and the speed of the pass-through from the exchange rate to inflation has become more important with increasing capital mobility for making the monetary policy decisions.
Data collection is in progress	Son, Y. <i>Testing of PPP before and after the Financial Crisis in 1997 in Asian Countries</i> .

RESEARCH EXPERIENCE

- 10/2007 - **Organization:** Minot State University
Project: Writing a grant proposal as one of Faculty Fellows for the 2007-08 MSU Grant Writing Institute.
