Books on Regulation

Recommended Publications

Welcome to the *2011 PURC Advanced International Practices Program.* This program is designed to enhance the economic, financial, and strategic knowledge of our participants from around the world.

From past programs we have learned that participants often request additional resources to continue the learning process. We have assembled a list of texts that you may wish to add to your personal or workplace library.

Books can be purchased locally or online using internet booksellers. Local booksellers may carry several of these titles, while others must be special ordered.

Online book retail stores include Amazon bookstore (www.amazon.com), Barnes and Noble Bookstore (www.bn.com), and Borders Book Store (www.bordersstores.com). With these online retailers you will be able to compare prices, and shop with ease.

Be sure to check the guaranteed arrival time to ensure that you ship your books to the correct location. If your books are expected to arrive after Friday, July 29, 2011, we recommend you have the books shipped to your home or office.

Top Recommended Books	ISBN	Price (est.)
