

## 2009 - 2010 Student Advisory Board

### Rebecca McEntire

I am beginning my senior year and last semester as a business management major. My concentration is in Human Resources Management. This summer I spent six weeks studying abroad in Florence, Italy and then six weeks as an intern at Winn-Dixie's corporate office in Jacksonville, Fl. I interned the previous summer with Winn-Dixie and was asked back to work on a project to improve their tuition assistance program. I enjoyed working with the Human Resources department and conducting research to help make a difference in the return on investment of their program. My experiences with Winn-Dixie have continued to grow my interest in the retailing industry. I will be graduating in December 2009 and plan to begin working in retail management. I hope to transition into a Human Resources position and pursue my MBA after working for several years. I love the University of Florida and I hope to stay involved as an alumnus for many years to come!
