

Warrington College of Business Administration

Heavener School of Business

Lisa D'Souza

Welcome Warrington Gators! I look forward to helping you make the most of your experience here at the Heavener School of Business.

I was a UF business student myself, earning dual bachelor's degrees in Business Management and Psychology. During my undergraduate experience, I served on the executive board of the Minority Business Society and was involved with the American Marketing Association. I also studied abroad in Paris and interned with DHL Express and JCPenney.

After graduating, I began my career as a College Recruiter for JCPenney. I enjoyed working with students so much that I decided to change careers. Once again, I returned to UF where I obtained my master's degree in Student Personnel in Higher Education and worked as a Graduate Assistant at the Career Resource Center.

In my current role as the Director of Career and Leadership Programs, I advise Students in Free Enterprise (SIFE) and the Leadership Ambassadors, teach Warrington Welcome, and support other programs within the office. If you would like guidance about getting involved or developing your leadership skills, please contact our office at (352) 273-0165.
