

Warrington College of Business
Heavener School of Business

Natasha N. Plunkett, MA. Ed., GCDF

Greetings Gators!

I am an Academic Advisor & Career Coach for the UF Online Business Program, serving students whose last names begin with A-H.

I am originally from West Palm Beach, FL and came to the University of Florida to pursue my education. I received my Bachelor's degree in English from UF and also moved on to receive my Master's degree in Higher & Post-Secondary Education from Argosy University. During my time here at the University of Florida I have also worked with the Office of Admissions recruiting freshmen and working with transfer students. It was through the role of admissions officer that I discovered my passion for helping students and families prepare for their next phase of education. Although visiting students throughout Florida and surrounding states was quite an exhilarating experience, I missed the opportunity to see students finish their journey through graduation. My current role allows me to work with both traditional and non-traditional students from various backgrounds. Most importantly, my position allows me to participate in my students' phenomenal journey from beginning to end.

Honestly, I believe my students have already demonstrated they are successful because they have taken a huge step in investing in their future. The key however, is in creating a holistic experience during your time as a UF student. That means taking advantage of your resources and creating a unique plan to fit your needs. That's where I come in; you may turn to me as a key part of your academic support system. In this role I will provide you with the necessary information to help you take advantage of your time with us. Feel free to email me at natasha.plunkett@warrington.ufl.edu or call me at (352) 273-0747 with your questions or to schedule an appointment (either phone or in person).

I look forward to working with you all. Remember . . . the University of Florida may be in Gainesville, but the Gator Nation is EVERYWHERE!
