Bachelor of Arts in Business Administration

Area of Specialization: Microbiology & Cell Science (MCS)

NOTE: If you are having trouble enrolling in MCB3023 and MCB3023L, please contact Brian Korithoski at bkorithoski@ufl.edu and explain that you are pursuing this area of specialization. You can also visit http://microcell.ufl.edu/programs/advising/ to schedule an appointment.

Description
The Department of Microbiology and Cell Science in the Colleges of Agricultural and Life Sciences offers this area of specialization to students for entry into graduate studies in microbiology, cell biology and related cellular and biomolecular sciences as well as providing a background for entry into government, industrial research and diagnostic laboratories, and professional program in medical, dental and veterinary medicine. For career information view: http://www.crc.ufl.edu/.

Requirements
Students are required to have a minimum of four classes totaling 12 hours from any of the 3000-4000 level courses listed below and maintain a minimum 2.0 Area of Specialization GPA. Be sure to check course prerequisite requirements.

- MCB 3023 Principles of Microbiology
- MCB 3023L Principles of Microbiology Lab
- MCB 4304 genetics of Microorganisms or
- PCB 4522 Molecular Genetics
- MCB 4203 or PCB 4233 Bacterial and Viral Pathogens or Immunology
- BCH 4024 or CHM 3218 Introduction to Biochemistry or Bioorganic Chemistry

Contact Information
You are always welcome to meet with an Advisor in the School of Business, however, advising specifically related to Microbiology and Cell Science is available through the department in the College of Agricultural & Life Sciences. For registration, scheduling, and area-specific questions, please contact:
