Lake Wauberg Ropes Course

Members of the Fisher School of Accounting Council participated in both the low and high ropes courses at Lake Wauberg. The courses strengthened the bonds between members of the council. The high ropes course included multiple climbing elements, most notably the zip line and jump-off climbing log. The outdoor challenge courses are something that every student should experience at some point during their years at the University of Florida.
At our second general body meeting, Professor Vincent spoke to members of the council about the many career paths a degree in Accounting can provide. After the insightful presentation, members enjoyed Publix subs and popcorn chicken while catching up with one another.

Members of the IM basketball team won our 4th game against the team ‘Hijabs Rule’ with a score of 64-29. GO FSOAC!
