

COST

The VEP is free to veterans who are selected for the program. Instruction, materials, travel expenses, lodging, and meals for the Phase II Boot Camp will be provided at no cost to each delegate. The costs of the VEP are underwritten by sponsors and private donors.

ELIGIBILITY

VEP serves veterans who meet the following three requirements:

- Have separated from active duty service (or are in the process of separating) with an honorable discharge
- Are identified as disabled by the Veteran's Administration or DOD based on a "service-connected" disability (or) Are "service distinguished" based on exemplary military conduct
- Demonstrate an intense motivation to start or grow a business

HOW TO APPLY

The VEP has a selective application process that reflects the unique opportunity and valuable resources being offered to eligible veterans.

VETERANS ENTREPRENEURSHIP PROGRAM

EMPOWERING AMERICA'S VETERANS

MAY 11-18, 2019
THE UNIVERSITY OF FLORIDA
GAINESVILLE, FLORIDA

A UNIQUE ENTREPRENEURSHIP PROGRAM FOR AMERICA'S HEROES

The Veterans Entrepreneurship Program (VEP) provides a rigorous entrepreneurial learning and development opportunity for service-disabled veterans and those who have uniquely distinguished themselves in the military. It is designed for veterans who are interested in starting a

venture as a means to financial independence or that have an existing small business that they would like to grow.

Research suggests a strong association between military service and venture success. Veterans tend to be more likely than non-veterans to start businesses. However, there is also evidence to suggest that the barriers to entry are higher and access to quality entrepreneurial training programs are more limited for veterans with service-related disabilities. The VEP supports men and women who have paid a dear price for our freedom. The program helps make the transition from military life to the entrepreneurial world a successful one.

The VEP offers a unique, highly innovative training program built around hands-on learning, personalized interaction, and exposure to inspiring role models. Our sole mission is to foster the creation of successful, profitable ventures owned by veterans. A team of world-class faculty, distinguished entrepreneurs, and subject matter experts work closely with delegates, providing a challenging, interactive, and informative experience. The program provides opportunities to develop entrepreneurial ideas while also learning leading-edge concepts, tools, and frameworks for growing a business. Most importantly, VEP participants will learn how to apply these principles and tools to current or potential businesses.

Never give in—never, never, never, never, in nothing great or small, large or petty, never give in except to convictions of honour and good sense. Never yield to force; never yield to the apparently overwhelming might of the enemy. —Winston Churchill

VEP SPECIFICS

At the heart of the VEP is an intense, eight-day training program at the University of Florida. It will cover topical modules comprising the critical areas of success for new and early stage ventures. These eight days are preceded by a five-week self study component and are then followed by a six-month mentorship period and online peer-to-peer networking. This integrated model, a three phase program covering the key elements of successful entrepreneurship, offers an innovative and effective combination of focused, practical training in venture creation and growth, accompanied by a support structure for graduates of the program.

VEP PHASE I

Concept Development and Self Study, March 25 – April 26, 2019

Over the initial five-week period, delegates will participate in a self-study curriculum developed for the VEP, facilitated by an online discussion and assessment module, which will be moderated by entrepreneurship faculty. This phase enables delegates to develop business concepts and prepare for the Boot Camp to be held at the University of Florida campus in May. Those with existing businesses will work on understanding and shaping relevant business issues.

VEP PHASE II

VEP Boot Camp, May 11 – 18, 2019

Like a military Boot Camp, this eight-day residency in Gainesville, Florida is intense, rigorous, and demanding. It is an opportunity for hands-on learning and interaction with faculty, guest entrepreneurs, business experts, and peer delegates. The Boot Camp exposes VEP participants to the “nuts and bolts” of business ownership through experiential workshops and lessons from world-class faculty representing nationally ranked programs around the country.

VEP PHASE III

Mentoring and Venture Development, May 25 – November 30, 2019

Delegates are provided with six months of ongoing mentorship from entrepreneurs and subject matter experts and online peer-to-peer networking. This phase of the VEP enables delegates to get feedback specific to their ventures and offers extended hands-on learning, which is critical to success.
