undergraduate degree in economics, he/she waives ECP 6725 thereby missing an internationally-oriented course in the MBA Program.

Financial and managerial accounting will be merged into one accounting course. This is the prevailing approach by many MBA programs. The new course would present financial statement analysis including techniques, cash flow analysis, impact of accounting principles as well as management control systems including planning, budgeting, reporting, analysis and performance evaluation. The course will focus on accounting from the MBA perspective of user rather than generator of data. The proposed prerequisites are a programmed text or equivalent course which covers the basic accounting process and financial statements and completion of first-semester MBA courses.

Last year, the faculty passed a proposal to merge QMB 5600 (Decision Sciences) into QMB 5200 (Managerial Statistics) and MAN 5505 (Operations Management) to balance the curriculum and keep pace with current MBA curriculum trends.

Professional education seminars will be offered to the students during all four semesters of their program. These seminars will provide the students with the necessary professional skills that are required in the workplace. Students will choose the seminars that best suit their particular needs. Most seminars will be taught in six-week modules. Areas considered include oral and written communications (replacing GEB 5215, GEB 5216), negotiation techniques, ethics and computer skills. These are key areas for which the students have expressed much need. The MBA student association would be instrumental in designing and marketing such programs.

### Proposed Curriculum (all courses are 3 credits)

#### First Year

##### **First Semester - 12 credits**

✓ ISM 5021 - Information Systems - Introduction for graduate students with minimal microcomputer operation skills. Topics include the range of computer information technology available, language types and procedural languages, applications in organizations, management of resources, and trends. Students use microcomputers in the College's computing laboratories.

QMB 5200 - Introduction to Managerial Statistics - Statistical concepts and techniques for solving business problems, with emphasis on modeling relationships, forecasting and quality control. Includes experience in the use of statistical software and may require some case analysis.

ECP 6705 - Managerial Economics - Managerial decision-making and problem-solving with microeconomic theory and related business administration principles.

MEMORANDUM

TO: W. Andrew McCollough  
Associate Dean for Academic Programs & Faculty Affairs

FROM: David Nye *DN/eh*  
Chairman, Undergraduate Committee

SUBJECT: Items for Faculty Meeting Agenda

The Undergraduate Committee has approved the following items and requests that they be placed on the agenda for the Faculty Meeting on November 14.

- I. Establishment of new courses to facilitate international studies.  
FIN 4956; RMI 4956; REE 4956; MAR 4956; BUL 4956; MAN 4956; GEB 4956;  
QMB 4956; ECO 4956; ACG 4956.
- II. Deletion of inactive FIRE courses to remove them from the curriculum file: FIN 3105; FIN 3233; FIN 3303; RMI 3215; RMI 3217; RMI 3215;  
RMI 4120.
- III. DIS Curriculum Change - The addition of CGS 3463, Introduction to Computer Programming for Non-CIS Majors, to the specified electives as an option to CIS 3110, Introduction to Programming (for CIS majors).

Thank you for your assistance in this matter.

SUBJECT: CGS 3463 Option

The DIS Department would like to add CGS 3463 Introduction to Computer Programming for Non-CIS Majors, 3 credits, to our specified electives as an option to CIS 3110 Introduction to Programming (for CIS majors). The effect of this added option is consistent with our original proposal that was accepted by the CBA faculty. It read in part.

Electives:

Specified:

COC 3110 Intro. to Computer Science (Pascal, Modula-2, or "C" in a new course)... 3

Our request to add CGS 3463 changes the proposal to read,

Electives:

Specified:

COC 3110 or CGS 3463 Intro. to Computer Science (Pascal, Modula-2, or "C" in a new course)..... 3

The effect of adding this option will be to make it easier for our majors to complete the intent of our requirement, namely, to take a procedural programming language that includes both structured data and structured logic. The course was named COC 3111. The CIS Department taught it last year and found that it was very popular with non-CIS majors at the UF. CGS 3463 will be offered F, S, SS.

With this change, Page 56 of the current Catalog will read as follows:

- Specified Electives - All Tracks ( 3 courses)
- ECO 3202 National Income Determinants and Policy..... 3
- One of the Following:
- COC 3110 Introduction to CIS..... 3
- CGS 3463 Introduction to CIS for Non-Majors..... 3
- One of the Following:
- COP 3121 COBOL I for CIS Majors..... 3
- COP 3120 Introduction to COBOL Programming..... 3

The meeting was called to order by Dean John Kraft at 1:10 p.m.

1. MINUTES

Minutes from the October 4, 1991, meeting were approved as distributed.

2. MBA COMMITTEE

Chris James reported the only major change to be added to the proposal handed out at the October 4, meeting is that in response to suggestions from faculty and students the proposal was modified in a way that requires writing and oral communications through a set of not-for-credit seminars. After much discussion took place a motion was made, seconded and passed to adopt the modified MBA curriculum change to be effective next Fall.

3. UNDERGRADUATE COMMITTEE

John James reported that the Undergraduate Committee has approved the following and would like for the faculty to vote on the three items:

-Establishment of new courses to facilitate international studies. FIN 4956; RMI 4956; REE 4956; MAR 4956; BUL 4956; MAN 4956; GEB 4956; QMB 4956; ECO 4956; ACG 4956. After much discussion took place a motion was made, seconded and passed to approve the establishment of new courses listed with the exception of ACG 4956.

-Deletion of inactive FIRE courses to remove them from the curriculum file: FIN 3105; FIN 3233; FIN 3303; RMI 3215; RMI 3217; RMI 4120. After much discussion took place a motion was made, seconded and passed to delete the courses listed from the curriculum file. For the record there was 1 opposed.

-DIS curriculum change. The addition of CGS 3436, Introduction to Computer Programming for Non-CIS Majors, to the specified electives as an option to CIS 3110, Introduction to Programming (for CIS majors).

After some discussion took place, a motion was made, seconded and passed to approve the addition of CGS 3463.

4. DEAN'S REPORT

Dean Kraft reported as of now there is no new information on the budget cuts. He commented on the information stated in the newspaper regarding the last set of cuts being held up by law suits. He stated that revenue collections are about the same and that Provost Sorensen thought we might have restoration of funds. Dean Kraft also stated that the private giving is coming along rather well with the capital campaign ending at 133% of goal.

Dean Kraft reported briefly on his international trip stating that he and Roy Crum visited a number of schools signed several agreements, set up opportunities for undergraduate, graduate students, and faculty exchanges. He mentioned that we are hoping to send about 200 of our students overseas giving them the opportunity of going for summer programs, semester programs, intensive language programs, or internships. There are opportunities where two universities may employ our faculty and offer our programs at their school. Students would pay their tuition but this is still being worked on, and depends on whether we would have summer school.

5. OTHER BUSINESS

J.B. Ray introduced Professor Jerczy Maczynski, who is visiting from Poland and will be here through February. Faculty were encouraged to stop in and see him.

A motion was made and passed unanimously to adjourn the meeting.
