

JD/MAcc Program

2021 Preparatory Courses Required for the JD/MAcc Program

1. Students who have earned a Bachelor's degree, or academic credit, from institutions other than the Fisher School of Accounting must complete the following preparatory courses prior to starting JD/MAcc coursework.
2. Students must meet with the graduate advisor to establish that courses taken at other institutions meet the requirements of the Fisher School. Courses deemed not to be equivalent must be satisfactorily completed at the Fisher School. With limited exceptions, these courses do not count towards the 34-semester-hour requirement for the JD/MAcc degree.
3. **Note that courses taken as part of professional certificate programs, continuing professional education, or on a noncredit basis do not fulfill preparatory course requirements.**
4. The need to complete preparatory courses could extend the length of the program. The additional time necessary depends on a number of factors, including the number of courses needed, which courses are needed, what semester the student begins, and whether the student is planning an internship during the program.
