

## **Bachelor of Arts in Business Administration** **Area of Specialization: *Horticultural Sciences (HS)***

### ***Description***

Horticultural Science offers students a generalized program, covering growth and development of all horticultural crops. This is a flexible option that can be tailored to individual students' interests and career objectives. Career options include greenhouse management, crop production, biological research, commodity marketing, retail and agricultural chemical sales, and produce brokering. For career information view: <http://www.crc.ufl.edu/>.

### ***Requirements***

Students are required to have a minimum of four classes totaling 12 hours from any of the 3000-4000 level courses listed below and maintain a minimum 2.0 Area of Specialization GPA. Be sure to check course prerequisite requirements.

HOS 3020	Principles of Horticultural Crop Production (required course)
FRC 3212	Introduction to Citrus Culture and Production
FRC 3252	Tropical and Subtropical Fruits
FRC 3274	Tree and Small Fruit Production
HOS 3281C	Organic and Sustainable Crop Production
HOS 3222C	Greenhouse and Protected Agriculture
HOS 3430C	Nutrition of Horticultural Crops

### ***Contact Information***

You are always welcome to meet with an Advisor in the School of Business, however, advising specifically related to Horticultural Sciences is available through the Horticultural Sciences department in the College of Agricultural & Life Sciences. For registration, scheduling, and area-specific questions, please contact:
