

Bachelor of Arts in Business Administration
Area of Specialization: *Industrial & Systems Engineering (ISE)*

Description

The Department of Industrial and Systems Engineering in the Herbert Wertheim College of Engineering offers the Industrial and Systems Engineering area of specialization that deals with the optimization of complex processes or systems. It typically focuses on the development, improvement, implementation and evaluation of integrated systems of people, money, knowledge, information, equipment, energy, materials, etc. Industrial and systems engineering often relies on, among others, the analysis and synthesis of mathematical, physical, social sciences, and the principles and methods of engineering design to specify, predict and evaluate results from such systems or processes. For career information view: <http://www.crc.ufl.edu/>

Requirements

Students are required to have a minimum of four classes totaling 12 hours from any of the 3000-4000 level courses listed below and maintain a minimum 2.0 Area of Specialization GPA. Be sure to check course prerequisite requirements.

Any 3000 or 4000-level [EIN](#) and [ESI](#) courses, excluding 4905 courses.
